Philadelphia, PA, Wednesday, May 15, 2019--On Wednesday June 12, 2019 at 6:30 pm we are expanding our program by hosting our first Developer's Network event at Mercy Neighborhood Ministries 1939 W Venango St Philadelphia PA 19140. These quarterly meetup events will be held to bring together Jumpstart Participants, industry professionals and other investors in a social setting to network, hear from industry leaders and learn from their successes.

Jumpstart Tioga is a 501c3 non-profit organization focused on community development in the Tioga section of North Philadelphia. We are dedicated to the revitalization of our community by: transforming blighted areas, rehabbing some existing housing stock and developing empty lots, by assisting small investors in real estate providing access to training, mentoring and financing and encouraging the local community to be active in the development process. Though we are new, we are resourced and resilient; so far this year we have held our first real estate educational course in May and we look forward to hosting our second course this fall.

The featured speaker for this event is Mosaic Development Partners. We are honored to host Leslie Smallwood-Lewis and Gregory Reaves of Mosaic Partners as our featured speakers for this event. They are a dynamic development team making strides in Philadelphia's Real Estate Market. Mosaic Development Partners was established in 2008 with the intention to help revitalize neighborhoods and marginalized communities. They focus on building new ideas, especially in locations where solutions aren't obvious. They build with community and cultural sensitivity in mind, hiring professionals and others who have been historically excluded from this industry.

This event presents a unique opportunity for the North Philadelphia real estate community to come together and hear a powerful message from successful leaders in the Philadelphia real estate market.
